

Crawl Under Blankets.

These chilly nights make one feel the shivers. One needs an extra Blanket at hand.

Fair Bros. & Co's Blankets

Are mighty comfortable, because they are soft and nice. They are the finest.

The Wilson Bill Doesn't Affect Quality.

But the price is down low enough to make this class of goods easily purchased.

Fair Bros. & Co. Invite You

To a thorough inspection of these Blankets and all the rest of their New Fall and Winter Stock.

Robert Coffman, of color, of near Howell, was brought to town Monday and tried on a writ of habeas corpus and ordered to be released.

Mr. L. A. Davis, God's Crossing, and Miss Martha Rayner, White, will be married at the home of the bride's father, Mr. C. C. Rayner, this morning at 10 o'clock.

Don't take our word for it, but ask those who have been here during the past year and see if they don't say we can save you money.

Photographer A. D. Taylor can furnish in his elegant photo in 10 minutes. If you want fine cabinet photos, call on him.

Dr. J. C. Hoover, late of Pleasant Ridge, will not locate in Rockport, Ind., as he contemplated doing, but will go to Owensboro instead. He goes to better town and will still be among Kentuckians.

We have in stock sweet mixed pickles, grape, raspberry and currant jellies, jam apples, preserves, strawberry jam and apple butter and other fresh staples and fancy groceries.

Old Uncle Herman Peyton, of color, died at his home in Fayette last Friday, of heart failure. He could not leave his bed, and he was the oldest citizen in the county. A good old soul has gone to rest.

Charles Morrison, of color, who has recently been sitting at church with the Commercial Hotel, was arrested Monday and placed in jail, charged with stealing an overcoat belonging to Superintendent Shapley. His trial will be Wednesday.

On account of Judge John P. Morton being engaged in his own case for reelection, he declined to occupy the bench during the sitting of the Ohio Quarterly Court and Hon. J. A. Smith was elected by the bar to fill his place.

Mr. Smith is a man with a steady, impartial hand.

The continued illness of Sheriff Stevens' family is keeping him confined very closely at home, with little prospect of his being out soon, his daughter, Miss Maggie, being dangerously ill of typhoid fever. But his friends over the county should not be so much concerned as he is not neglected, and on November 8 our popular Sheriff will be released by a humane majority.

The Herald will appreciate the favor if anybody knowing of visitors or any item of local interest, will send word notifying us of the facts. The Herald is edited by a man who has a story to tell, and he has to tell it in a matter which they know it, and we naturally seek the cooperation of the public in giving them all the news and the best paper in Kentucky every week.

Mr. John Brown, who lived near Lebanon, in this county, died last Sunday morning at the advanced age of 81 years, and was buried at Goshen cemetery next day, Rev. E. E. Pate officiating. He was born near where he died, and left many descendants.

He lived an honest, upright life, and was highly respected by all who knew him. A good man has gone to his reward.

We hope to mention 200 lines from Ohio May 10. It was grand to see 30,000 march through the city of Pittsburg at the last Exposition, in the presence of at least 200,000 visitors. Let's show the world next September that Kentucky is still alive and growing.

The citizens of Louisville are doing all in their power to make it the grandest event ever seen in that city, and the day of our old capital will take a hand in the work and help make it a success.

Two Harrodsburg Herald and Republic have volunteered to do all they can in their line to help us. They are now now drawing pictures of never seen us or ever think of the welfare of the poor soldiers, widows and orphans. Since our Post office is in existence we have sent over \$100,000 for different causes of charity. A great many or think it costs too much to belong to the Post, and to them we would say that the cost is very small—over \$100 per year. All we want to build up a sense of duty to it. You have a right to live and help the world as well as to receive your pensions from the Government. A true Union of our people should not feel ashamed to fall in line with his comrades, as each thinks his name right and just at the time of the trouble. Both camps will stand in history as brave men as long as the world stands. It is the outside later of all good things that are true, the evidence between the brave men. As for politics I have nothing to do with our order, and we would be pleased to hear from some outside comrades on the next Ex-Compendium.

For Sale or Rent. A tenant house on Centre Avenue, near the corner of 1st and 2nd. Call on or address J. C. McHenry.

LOUISVILLE, KY., Oct. 15.—Buckner Berry, a farmer, and Dr. James Forrester, of Henderson, in the service of the Louisville and Nashville railroad, quarreled about Oct. 10, and Berry shot Forrester at Turner's, a 44-caliber shot.

James, who is a first cousin of Jesse James, said he had gone through the war with Breckinridge, who had carried a bible on his shoulder and a beard on his chin. Berry then shot Forrester in the abdomen. James is under arrest at the hotel at Turner's.

church has been transferred to the Limestone Circuit and Taylorville to the Rockport circuit. Rev. R. B. Davidson will be the pastor at the former place and Rev. F. J. Dewitt at the latter.

John Pauline Coleman, infant son of Mr. and Mrs. T. J. Smith, died manaculous early while on a visit to relatives in Owensboro last Tuesday night. He was a bright little fellow, four years old, and the pride of his father's heart. He was just crossing the threshold that little infancy with more thoughtful years, at that tender age when childhood begins to respond so beautifully to the yearning love of the parent, and in him the delicate father and mother saw the fruition of their fond hopes and desires.

The bereaved parents and sisters have the sympathy of the entire community in this hour of sorrow. The remains of the little one were interred in Oakwood cemetery on Thursday, the 11th, in the presence of a large concourse of sorrowing people.

A meeting conducted by Eld. R. P. Fowler, of the Christian Church, was commenced at the courthouse in Hartford last Wednesday night, as announced. By kind permission of the Methodist brethren, the meeting was changed to that church, and is progressing with much interest. Mr. Fowler is a man of splendid ability as an orator and a ponderer of the scriptures. He is preaching some powerful sermons, several of which have been commented upon by the press. He has been given excellent attention by good audiences and the presence of his sermons is producing much good.

The meetings will continue another week or two, and it is hoped that the entire community will be benefited by his preaching.

On account of Judge John P. Morton being engaged in his own case for reelection, he declined to occupy the bench during the sitting of the Ohio Quarterly Court and Hon. J. A. Smith was elected by the bar to fill his place.

Mr. Smith is a man with a steady, impartial hand.

MONTHLY CROP REPORT.

October 8, 1934.

There has been no very marked change in the condition of the corn crop since last report. The weather has been for drying and maturing the crop. Cutting is progressing well, and wheat sowing has commenced. In many localities the crop is good, and where it has been, it is being harvested for the yield is fully up to expectations. The Government report for Sept. makes it clear that the crop is good. In all the principal corn States, the crop is good. In the U. S. Statistics, says "keeping the month of Sept. 1934, the Sept. condition of corn for 1934, is the lowest on record. In the month of Sept. 1931, it stood at 80 percent the present month, second 84. In all the principal corn States, with the exception of Ill., the decline from the Aug. condition is very distinct. All the Southern States show good gains and all report a good crop. A special report from eight Western States shows that out of an aggregate of 40,073, 34,000 acres of corn have been abandoned or cut out for total in round numbers 10,000,000, or 39 per cent. The Statistics for this month show that the crop is about 30 per cent. of the entire acreage planted in the United States. The average condition of corn in Kentucky is placed at 84.3 per cent.

Wheat.—The indications are that there will not be a large crop of wheat this fall, the rains come too late to prepare the lands for plowing, and the very low prices has discouraged the farmer from planting a large crop. Some are substituting barley and others very much of the present crop is being fed to hogs, which is a vast saving to the corn crop. We have asked the correspondents this month as to the average yield per acre this year. The average is placed at 14.0 bushels and all agree that the quality is superior grade, and is placed at 96 per cent.

Rye.—The rye crop of the largest producing States, namely, Penn., New York and Wisconsin, are a very fair crop. The indications are that there will be a larger crop raised in Kentucky next year than usual. The crop has been small, but it has been fed to get a very accurate report. The average yield per acre is placed at 14.3 bushels. The quality of the grain is placed at 91 per cent.

Oats.—The average yield per acre is placed at 87.7 bushels. The average quality is placed at 97 per cent. The Government Statistics say "that this is the last report on the condition of this crop for the present season, it may be taken as indicating a crop considerably below the average."

Barley.—The average yield per acre for barley, 10.4 bushels, is a very fair crop, a larger average of barley was reported this year than usual. The Government report shows the lowest Sept. average during the last ten years.

Potatoes.—The early crop of potatoes made a fair yield in most localities, but the late crop has been very poor. The average yield per acre is placed at 73.3 per cent.

The farmer should know that this winter, for the U. S. Statistics reports their condition for the whole country at 64. The average yield per acre is placed at 73.3 per cent.

Hops.—The money from the sale of hops is now generally distributed among the farmers that of any other class of stock. I have, therefore, tried to get as full a report as I can over the States as to the condition of the crop. The average yield per acre is placed at 73.3 per cent.

Tomatoes.—Correspondents from nearly every county report wonderful improvement in tobacco in the past six weeks. The most improvement has been in the "white turkey" region. Per cent. for white turkey, 97. Per cent. for dark tobacco, 80.

Glucose.—Grains of all kinds are reported very short in most localities; all kinds of grass has not grown as it was thought it would have done since the rain commenced. Rain here has been abundant in many sections. Some correspondents report stock water very dry.

Dr. Bell's Pine Tar Honey is different from all other cough remedies. It is given by allaying the inflamed membrane, giving tone, strength, vigor and vitality to the respiratory organs.

What Farm Figures.—The position of the farmer is an honorable, independent one. He is not a slave, and when followed intelligently will yield a bountiful return.

ONE OF LINCOLN'S JOES.

A Visitor Who Was Recently Seen at the White House.

Colonel Clark E. Carr of Chicago, who was minister to Denmark under the Lincoln administration, was in Washington one day when Lincoln was president.

"I'm going to try to White House to see Abe," said Frank Lovelace to Carr as he sat in front of the Lincoln monument.

"You know I had the smallest," said Lincoln in a cold, hard voice. Lovelace said and proceeded to talk about other matters, while Carr's few hairs on his head stood up.

"Did you know the president had the smallest?" Carr asked Lovelace. "I've had it," replied Lovelace, "and I'll never have it again."

"Well, I never had it," Carr said. "If I do I want to get it out of my system. I could tell the disease from Abe Lincoln. That will be something."

Four hops sat in a row on the tail of a big four horse truck, with their legs spread wide, and Carr's head was going down Broadway.

"How much tillable land is there in your county?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the thickness of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the quality of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the yield of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the condition of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the value of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the use of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

"What is the future of the soil?" Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

THE PURPOSE OF THE MEETING.

The 4th of October an immigration convention, representing the whole State of Kentucky, will meet in Louisville.

The purpose of the meeting is to bring before the world in their strongest light the resources of the State and to invite here a class of intelligent and thrifty home-seekers, whose coming would add so much to the business of the State.

Every citizen of the State ought to be represented in the convention, and arrangements are being made to have the State represented in the convention.

That an intelligent and correct statement be prepared, Tan Hanzan is the man to do it. He is the man to do it.

How much tillable land is there in your county? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the thickness of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the quality of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the yield of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the condition of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the value of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the use of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the future of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the condition of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the value of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the use of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."

What is the future of the soil? Carr asked Lovelace. "I don't know," Lovelace replied. "I don't know."
